

## What is the SecureView Tablet?

This tablet is a month-to-month paid service that comes standard with a wireless outbound phone system, as well as services that can help a person overcome challenges, cope with incarceration in a healthy way, and get a start building a productive life on the outside.

Now you can provide your incarcerated family member or friend with the technology to help them prepare for their release in a constructive and beneficial manner.

## How to order the SecureView Tablet:

- Go to [www.SecurusTablet.com](http://www.SecurusTablet.com)

*At this time, [www.securustablet.com](http://www.securustablet.com) is best utilized in Mozilla Firefox and Google Chrome. It is recommended that you do not use Internet Explorer for this service.*

- Click on the "Get Tablet" link
- Select the incarcerated's facility from the drop down menu. There you will see plan options and prices
- Fill out Ordering Information

## FAQs

There are a number of useful tools and resources available by going to:  
[www.SecurusTablet.com](http://www.SecurusTablet.com)

Here you will find frequently asked questions, inmate tablet features, and instructions on how to order a tablet and manage your SecureView account

## Please note: No Refunds

In connection with and as a condition of your purchase and/or subscription on behalf of your inmate family member or friend, you hereby agree that no refunds, set-offs, credits, payments, compensation or other consideration of any kind will be due the inmate in regard to, in any way whatsoever, your purchase and/or subscription. By ordering an inmate tablet, and authorizing the subscription service, you understand and acknowledge that there are NO REFUNDS. You will not get a refund if, for example:

- Your inmate is released prior to your subscription ending, regardless of subscription term
- Your inmate breaks the tablet, whether of their own accord, or by someone else's doing
- Your inmate's tablet has been taken up or services paused by the facility staff
- Delay in tablet delivery to a facility and/or to the inmate upon receipt by the facility
- Tablet services are down, be it in all or part of the services

INTRODUCING...

THE SECURUS  
**SecureView**  
TABLET

## GETTING OUT, MEANS GETTING ANOTHER CHANCE

YOU can help your family member or friend make the most of that chance.

The Securus SecureView Tablet is a low cost, secure, correctional-grade, multi-purpose communications device specifically designed for inmates within a jail or prison.

Our SecureView Tablet Device focuses on proactive and constructive ways to prepare inmates for reentry and

reclamation into society. It is currently being used by inmates at various locations across the United States.

Our goal is to provide a low-cost tablet solution which maintains a balance of useful and purpose-driven content vs. fun and interesting content.

# SecureView INMATE TABLET DEVICE

## THE SECUREVIEW TABLET FEATURES

**Phone Calls** Your inmate family member or friend can make calls directly from their tablet. These calls are not free or discounted and are charged to them in the same way that regular phone calls are completed now. Phone calls from the tablet are still recorded and monitored.

**JobView** Your inmate family member or friend can search from hundreds of jobs nationwide. While there is not the option to apply for the job at this time, they have the ability to see what is available to them, to better develop a plan for their release.

**Podcasting** Your inmate family member or friend can subscribe and listen to hundreds of available podcasts in a variety of different categories, ranging from self-help options, to religion, news and audio books.

**Music** Your inmate family member or friend can listen to a number of our radio station offerings.

**Ebooks** your inmate family member or friend can download and read any of our thousands of available books from our diverse network library selections – free of charge.

**Religion** your inmate family member or friend can read their religious works directly from the tablets. While we may not have every religion immediately presented to them, we are working diligently to provide these works as they are available.

**Games** your inmate family member or friend can play one of two games at this time: Solitaire and Sudoku. Currently, these are the only two games we allow – but there may be additional games available in the future.

## BENEFITS

### INMATE BENEFITS:

- Proactive and constructive applications and opportunities
- Increased communication with family members and friends
- Assistance in finding employment opportunities prior to release
- Access to self-help opportunities which focus on family, marriage, and addictions
- Access to religious books (i.e., Bible, Quran, Tanakh, and more)
